Erf 4794 is currently zoned as municipal in terms of the Greater Potgietersrus Town Planning Scheme 1997 and uses permitted under municipal zoning can be uses as determined by the municipality. The same applies to Erf 4699 that is zoned "Special" in terms of the Greater Potgietersrust Town Planning Scheme of 1997.

There is no record at the disposal of the municipality that outlines the special conditions attached to the subject property and as a result it is proposed that the preferred bidder conducts the necessary processes required to obtain appropriate land use right for the development of both the Regional Shopping Mall and Motor City.

3) Existing Land Uses

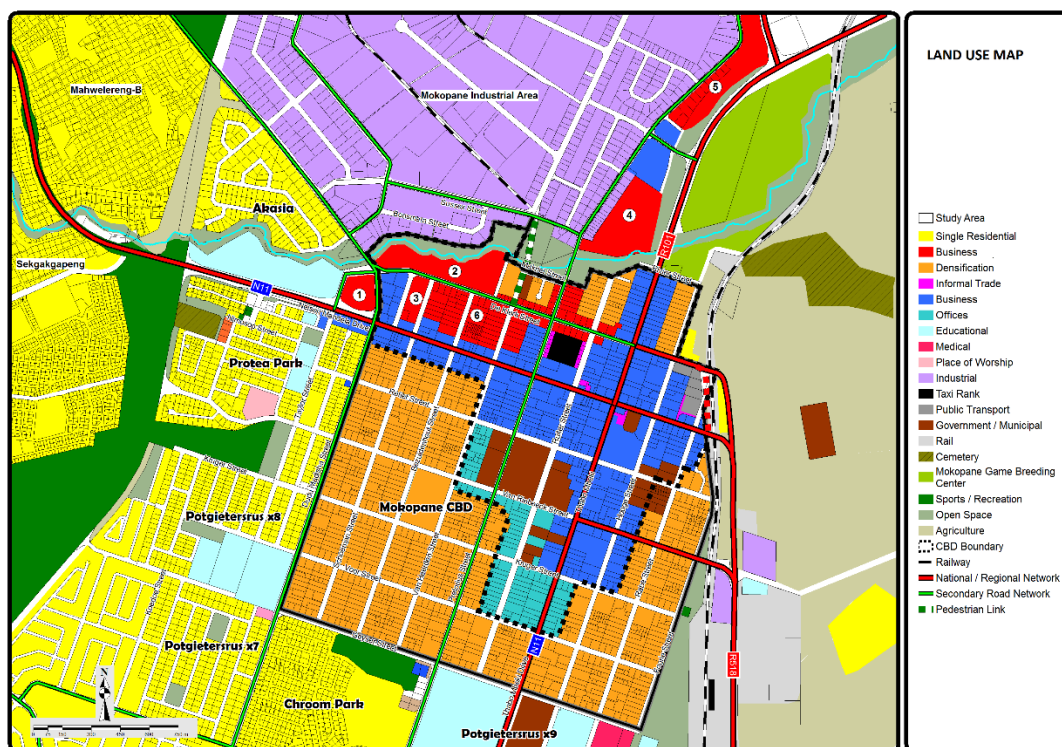

Both sites are currently vacant and informally used as parks. Note should be taken by the prospective bidders that there is an old locomotive (the old train engine) that is placed on Erf 4794 for extensive period of time. Although the locomotive is not registered as a monument the prospective bidder should consider conducting necessary investigations to establish if the locomotive is protected in terms of the National Heritage Act and if so conduct necessary processes required to incorporate the locomotive into the mall or relocate it to the nearest public open space.

4) Surrounding land uses

The immediate surrounding land uses dominant around the development can be summarized as follows:

- WEST :** Mixture of vacant and occupied sites zoned Industrial 2 in terms of the Greater Potgietersrust Town Planning Scheme 1997 that can fairly be categorized as light industries due to the fact that they do not allow noxious industries

- SOUTH:** Dorps River and mixture of uses ranging from dwelling house to overnight accommodations

Below is a land Use Map showing the proposed development site and its surroundings.

5) Key economic activities around the development site

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.

- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.

- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.

- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
